

Procedures used to Determine the Number of Vessel Safety Checks or Marine Dealer Visits Performed

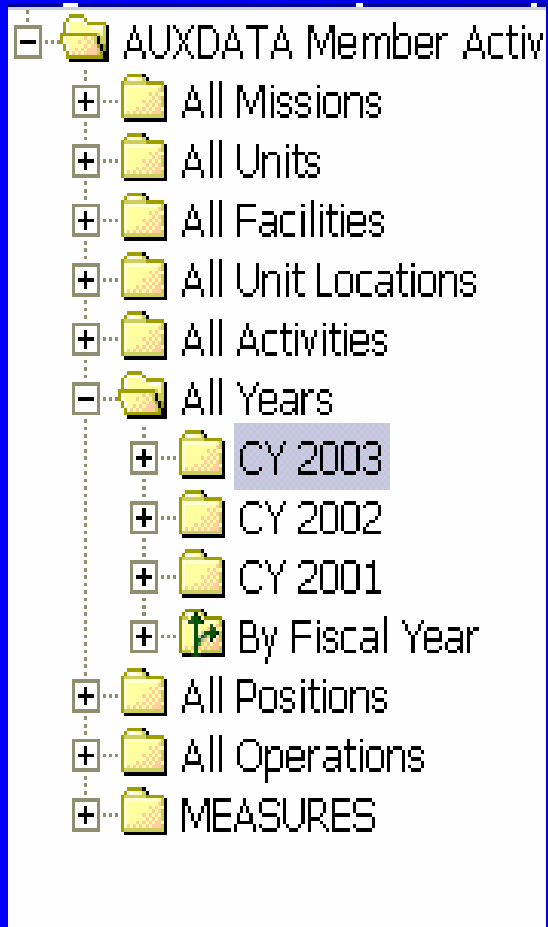

Enter the "Member Activities" Cube

Cognos PowerPlay Web Explorer **AUXDATA Member Activities** COC

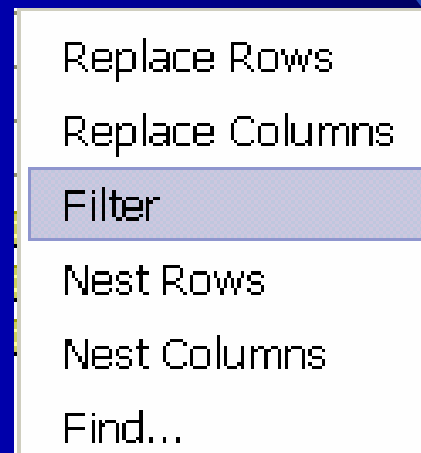

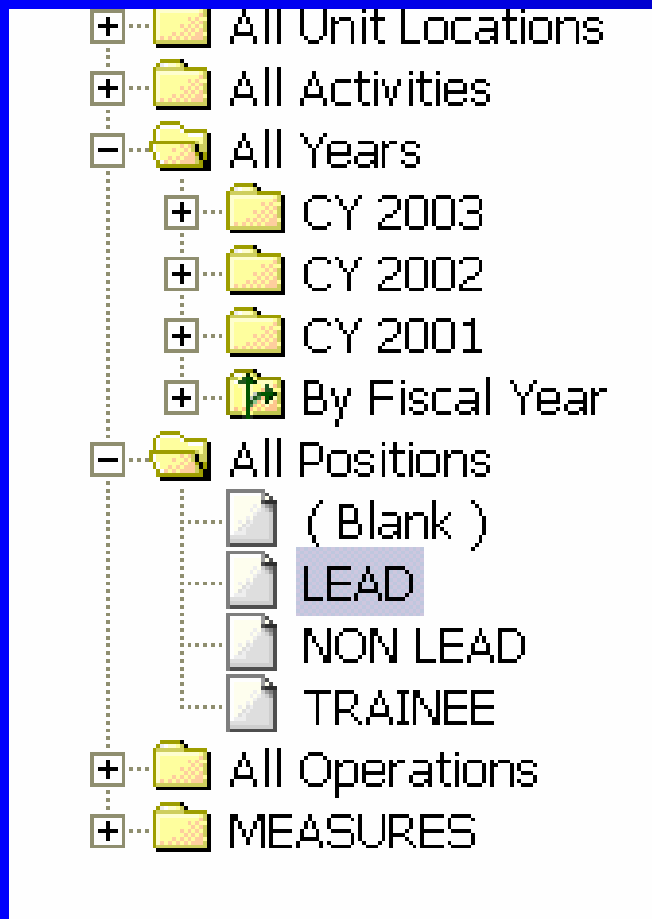

The AUXDATA Member Activities cube displays statistics related to individual member participation in Auxiliary missions. Hours performed to complete Auxiliary missions using Air, Boat, and Radio facilities are available in addition to hours spent in support of Unit based missions such as Public Education or Public Affairs. Supplemental statistics such as ATON Verified, PE and PA related contributions, and other mission related parameters are also available. Upper level Flotilla, Division, and District statistics reflect the sum of all individual member activities vice the unique unit/level activities as reflected on the Unit Summary Report. Cube questions should be directed to ENS Justin Cassell, JCassell@comdt.uscg.mil (800) 842-8740 x 71010; or Harry Schoe BC-ISL@cgaux.org. Cube last refreshed on Monday, November 03, 2003.
